Saturday March 10th
9:00 a.m. - 3:00 p.m.

SOE E2 Building, Simularium UCSC

Want a car that does 0-60 mph in 3 seconds? Come see why electric does not mean slow! This all day event will feature a wide host of topics all related to electric vehicles. Topics will cover the socio/political issues, performance vehicles, solar cars and advantages of electric vehicles to our neighborhood power grid. Numerous electric vehicles will also be on display and demonstrated. Join CITRIS and SOE to learn about why electric vehicles are not only practical, but fun! Talks, displays and lunch included for all students, faculty and guests.
