Director, CITRIS
Andrew S. Grove Distinguished Professor of
Electrical Engineering and Computer Sciences

TUESDAY
6/2
3-4pm

599 Engineering 2
UC Santa Cruz
1156 High Street
Santa Cruz, CA 95064

RSVP to Tammy Tooley-Chelossi:
ttchelossi@soe.ucsc.edu

How do you go from nanotechnology to an engaged and informed citizenry?

How does one use technology to revolutionize health care, energy efficiency and critical infrastructure management?

The Center for Information Technology Research in the Interest of Society, now in its 14th year, is pursuing cutting edge, interdisciplinary research in all of these areas. In this talk, we will describe highlights of our current research and discuss the opportunities that lie ahead.
